DOCKET NO. 06-0403

To: The Commission

MOTION TO FILE CONFIDENTIAL ERRATA

Comes now, World-Link Solutions, Inc. ("WLS" or "Applicant") and moves for a grant of confidential treatment for financial documents and a letter of credit filed under seal as an errata and supplement to its Application for a Certificate of Public Convenience and Necessity to Provide Resold and Leased Facilities-Based Competitive Local Exchange and Resold InterLATA and IntraLATA Toll Services ("Application") in Docket No. 06-0403. In support whereof, the following is shown:

Applicant submitted an errata and supplement to its Application the company's year-end 2005 unaudited financial statements on July 13, 2006. Applicant further submitted a copy of a letter of credit. Given the highly competitive market conditions that exist in the state, these documents and the information contained therein is extremely sensitive and confidential.

While the Commission needs to review this information to determine and confirm the merits of the Application, the general public has no direct or substantive interest in this information. Applicant's competitors also do not require this information other than to gain potential competitive advantage or to use the information in an unfair and potentially anti-competitive manner.

The enduring policies of the state have been to encourage and support competition in telecommunications. Essential to the proper workings of that policy is the maintenance of a level playing field in which competitors are made to compete on their own merits relative to price, service quality, innovation and customer service. Allowing access to one competitor's commercially-sensitive information runs contrary to these principles and, hence, would not serve the public interest.

In consideration of the factors set forth above, WLS requests that the Commission grant confidential treatment to the errata and supplemental filings. These documents contain a notation that they are confidential and require that, because of their nature, should not be disclosed to others than the Commission and its staff for purposes of evaluating the Application.

Respectfully submitted,
